

Dear NC Advertiser,

Nebraska Cattlemen (NC) understands this is a difficult time for everyone as we travel through uncharted waters with the COVID-19 pandemic. NC and its *Nebraska Cattleman* magazine would like to do what we can in order to help you communicate with our members and readers.

We are committed to helping maintain your business, therefore, **if your company has a current protocol for this virus and you are willing to share it with us, we will be sure to help you spread the word. Also, please let us know if your business hours or methods have been adjusted, and we will help update our members and readers of any changes.**

Communications are vital. Letting your customers know you have a plan to protect their health is helpful.

Of course, our member's health is a top priority for NC so please continue to be considerate of others during this time.

For other updates on COVID-19, [click here](#).

Please let us know if there is anything further we can do.

Sincerely,

**Talia Goes**

Director of Communications
