

## **About McLean Beef...**

McLean Beef is a family owned and operated business near Benedict, NE and take pride in selling quality home grown dry aged beef.

What makes our beef a cut above the rest? We start by selecting the top end from our Angus Cross herd to be processed through our premium program at a USDA inspected facility. We know where the consumer's beef is coming from and monitor how they are raised, fed and handled. McLean Beef dry ages the beef carcass for 2-3 weeks in a cooler to lock in the natural beef flavor and gain tenderness. All our meats are hand cut and individually vacuum sealed and frozen for freshness and convenience.
