

About Hunt Limousin Ranch...

We are a family owned and operated seed stock/farming operation located in south-central Nebraska, near Oxford. We have a calf but-back program where we purchase approximately 1,500 calves annually from our bull and female customers. Of these cattle, we select the very top end to go into our Heartland Premium Beef program. On average, we sell 60-80 beefs per year, and have been selling beef this way for over 30 years. Genetically the animals are Limousin x Angus, also know as LimFlex. They are the best of both worlds....the high marbling from the Angus and the lean tender meat from the Limousin.
